Environmental Statement

At Brava Lifestyle we recognise the environment is important not only to ourselves but also to our customers, suppliers, neighbours and our employees. We therefore strive to maintain sustainability and competitive advantage with as little impact on our surroundings as is possible through continuous improvement in our environmental performance.

- **Compliance**

Full compliance with all applicable environmental legislation, which affect our activities.

- **Environmental Impact**

To improve our environmental performance we carefully inspect all of our suppliers of manufactured materials by ensuring they utilise wood waste energy, and other resources with increasing efficiency, reducing all forms of waste, and preventing pollution.

- **Forestry**

We endeavour to source material, which is produced from forests that are managed in a sustainable manner and give preference to **FSC** certified procedures.

- **Risk Management**

We shall have up to date procedures to prevent and respond to emergencies, and evaluate environmental risks associated with our procedures.

- **Environmental Management**

We will implement systems to enhance and support the statement made in this policy, we will monitor and access the procedures put in place and act accordingly.

- **Information and Training**

We will provide our employees with information and training to allow them to fully utilise this policy into their work.

- **Regulatory Officers**

We shall work with our customers, suppliers, government bodies and regulators to ensure we operate within official and our own boundaries as set out in this statement.

Environmental Policy

- As a manufacturer we strive to ensure that all production processes are carefully planned and closely monitored.
- We are aware of the effects that manufacturing may have on the environment and continually employ plant and adopt techniques to minimise this.
- We carefully inspect all of our suppliers of manufactured materials to ensure that they follow an environmental and safety policy of their own and that where applicable E1 emission standards are met and the required classification for fire and flame is achieved and all relevant British Standards are conformed to.
- In this way we can be sure that all products despatched from our factory are of the highest standards and conformity and will be accepted by the most stringent of customers.

We constantly research and develop options to improve existing operational and environmental standards.
